

# Poynt ADA Plate Digital

## Quick reference guide

The Poynt ADA Plate comes with both the P5 and P61 and attaches to your Poynt device.

It works in conjunction with accessibility PIN mode on your device and features raised tactile indicators of where customers should place their finger for PIN entry.

- 1 Enable Accessibility PIN mode by switching the toggle near the hand icon ON.
- 2 Attached the Poynt ADA plate.

- 3 Follow the instructions shown on screen to guide your customer through the payment process.
- 4 With the ADA plate in place over the screen, the raised lettering will correspond with the numbers displayed on the screen.
- 5 The customer will read each number with their fingers along the edges of the screen. Once they locate the digit they want to select, they simply swipe inward toward the centre of the screen and tap.

### P61 ADA PIN plate

### P5 ADA PIN plate

The numbers 1, 2, 3, 4, and 5 (A) will be found on one edge of the screen and numbers 6, 7, 8, 9, and 0 (B) on the opposite edge. To select, the customer will swipe into the screen and tap.

The ability to **Cancel**, **Backspace**, or **Enter** (C) will be found across the bottom of the screen / on the sides of the screen. To select swipe into the screen and tap.
